

CALL FOR PAPERS

Papers in the main technical program must describe high-quality, original research. Topics of interest include all aspects of computer vision and pattern recognition including, but not limited to:

Sensors and Early Vision
 Color and Texture
 Segmentation and Grouping
 Motion and Tracking
 Stereo and Structure from Motion
 Image-based Modeling
 Illumination and Reflectance Modeling
 Shape Representation
 Physics-based Modeling
 Object Recognition
 Video Analysis and Event Recognition
 Face and Gesture
 Statistical Methods and Learning
 Vision for Robots
 Performance Evaluation
 Medical Image Analysis
 Image and Video Retrieval

All submissions will be handled electronically. In addition to the main technical program, the conference will include Short Courses, Workshops, Demonstrations, and Exhibits. Submit proposals to the appropriate chair.
