

# Call For Papers

## IEEE Computer Society's Technical Committee on Computer Architecture (TCCA) Newsletter

The TCCA Newsletter invites articles for publication. Any articles related to Computer Architecture are welcome, including position papers on current research and development, and book reviews. We also invite proposals for guest-editing special issues of the TCCA newsletter. The articles published in the newsletter are ordinarily unrefereed. More information regarding TCCA and recent Newsletter issues can be obtained from the TCCA Web site at:

<http://www.computer.org/tab/tcca/tcca.htm>

Four issues are published each year. Manuscripts are published in the first available issue, usually within three months.

Paper submission guidelines are as follows:

1. Submitted articles should be in a camera-ready format (a two-column format is recommended). Please provide page numbers.

The format should be similar to a typical IEEE conference paper. All printed material, including text and illustrations, should be kept within a print area 17.5 cm wide, and at most 22.5 cm long.

2. We request electronic submission in the form of a ghostviewable postscript. If you are unable to provide a postscript file, please contact the editor at the address below. E-mail your postscript submission to [kaeli@ece.neu.edu](mailto:kaeli@ece.neu.edu).
3. Also send a completed signed IEEE copyright form to the editor. Include a hardcopy of your paper.
